Abstract :

Understanding ANTLR + Machine learning for Tomographic Imaging & Informatics Framework Development w.r.t ImageJ/TomoJ/Java/JikesRVM - Research Virtual Machine(RVM)/Other JVMs → A Novel Suggestion on Exploring WEKA & TENSOR FLOW Tools in R&D of Medical Imaging Algorithms.

index words/key words : ANTLR/Java + JikesRVM/JVM/TomoJ/ImageJ/Medical Imaging/ Machine Learning.

Non-Profit R&D. Inspiring Others is always GOOD. Sincere Thanks to all WHO made this happen in my LIFE.

[I] Main Idea + Introduction + Inspiration :

Same as the TITLE Above. Please Check our References on GITHUB or Vixra.org.

We already published a number of Short Technical Communications on Vixra.org.

Please Read. Thanks.

[II] R&D Informatics Framework Using Java + its Related Tools :

It is very easy to derive the Informatics Framework based on the following reference/s :

[a] https://github.com/tejdnk-2019-ShortNotes

[b] https://www.vixra.org/pdf/1803.0124v1.pdf

[c] https://www.cs.waikato.ac.nz/ml/weka/

[d] https://www.antlr.org/
