[I] Main Idea + Inspiration :

Ruby + RUMALE + RT DICOM Tool Kit Performance Monitoring Using mruby-libqrng for Advanced Medical Imaging + Informatics R&D → A Pioneering Effort in the Context of Developing Medical Imaging Algorithms Using Machine Learning + QRNG Related Concepts.

[II] Informatics Platform to TEST Ruby based Medical Image Processing :

You could easily derive an Image Processing + Informatics Platform based on our references.

Left as an exercise to our readers. Testing in progress at the time of submission.

With Thanks – Dr.Nirmal.

[III] Important References :

[a] <https://github.com/tejdkn-2019-ShortNotes> → **Short Technical Notes from us. Very Useful.**

[IV] Acknowledgment/s :

Sincere Thanks to all WHO made this happen in my LIFE.

Non-Profit R&D. Inspiring Other Always.

[THE END]
